

# Carbon Reduction Plan

Supplier name: FRP Advisory Group plc & its subsidiaries (FRP)

Publication date: 11 November 2021

## Commitment to achieving Net Zero

FRP Advisory Group plc and its subsidiaries are committed to achieving Net Zero emissions by 2030.

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

FRP first published emissions data in its annual report for the year to 30<sup>th</sup> April 2020 but data did not include all scope 3 sources. As a result, the baseline provided is per our 2021 annual report and subsequent calculations.

<b>Baseline Year: 2021</b>	
<b>Baseline year emissions:</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
<b>Scope 1</b>	<b>10</b>
<b>Scope 2</b>	<b>94</b>
<b>Scope 3</b> (Includes categories 1-14)	<b>3,016</b>
<b>Total Emissions</b>	<b>3,120</b>

## Current Emissions Reporting

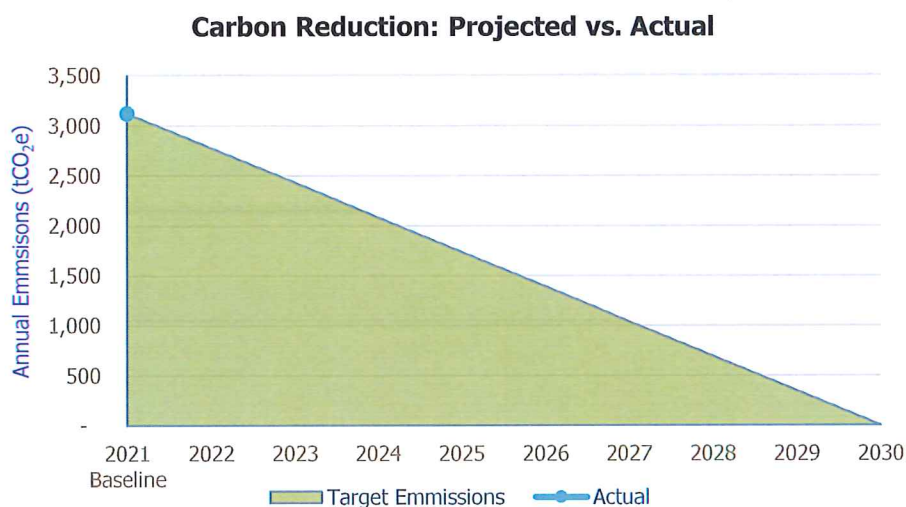

Reporting Year: 2021	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Scope 1	10
Scope 2	94
Scope 3 (Includes categories 1-14)	3,016
<b>Total Emissions</b>	<b>3,120</b>

## Emissions reduction targets

We are committed to becoming Net Zero by 2030. In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

- Source 100% renewable electricity for our buildings
- Reduce business travel
- Invest in certified market solutions for emissions we cannot eliminate

We project that carbon emissions will decrease over the next five years to 1,387 tCO<sub>2</sub>e by 2026. This is a reduction of 56%

## Carbon Reduction Projects

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2021 baseline. The carbon emission reduction achieved by these schemes equate to 34 tCO<sub>2</sub>e, a 1.1%ge reduction against the 2021 baseline

- Sourced 100% renewable electricity for contracts we control

In the future we hope to implement further measures such as:

- Working with our landlords to switch to renewable energy
- Installation of LED lighting to all offices
- Switching to renewable gas when it becomes widely available
- Providing equipment at all locations to enable more meetings to be carried out remotely
- Reviewing our Business Travel Policy to encourage staff to use more sustainable travel methods where travel is necessary.
- Using carbon offsetting schemes for all unavoidable air travel
- Encourage our major suppliers to adopt net zero targets

### Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

**Signed on behalf of the Supplier:**
